GRAND JURY FILES REPORT

County Inquisitorial Body Concludes Business and Adjourns

NUMEROUS SUGGESTIONS MADE

Reccommend that All Purchases of County Supplies be Made Under Contract Plan

Last Saturday afternoon the grand jury submitted its report to Judge Buck and the body was discharged.

The document is a most voluminous one, and to print it in its entirety would be a task of great magnitude.

In the second, third, fourth and fifth districts the roads and bridges are found in good condition, but in the first it is found that the Southern Pacific and Ocean Shore railroads have changed and altered public highways to suit their own sweet will, and in almost every case the public was the loser.

The schools of the county were given particular attention, and while in the second and third districts doors open outward and fire drills are regularly practiced, in the other townships these safeguards for the children have not been inaugurated. The suggestion is made that all districts be compelled to comply.

No indictments were returned against any one, but the accusations already made public were referred to

Following is a complete resume of the points covered in the report:

On January 15 we visited the poor farm and found the newly appointed superintendent and his assistant very much intoxicated. Mr. McEvoy, who was with us, said he would take steps to cause his removal. This was done.

Former Superintendent Mr. Eikerenkotter should be ashamed of the conditions during his term of office, and we unanimously censure both he and the committee of supervisors of the hospital whose duty it was to see that the place was kept in proper condition.

It is recommended that a guardian be appointed for Edw. R. Hart, the old war veteran whose money Eikerenkotter has had in the bank in his own name.

Various recommendations are made for the betterment of the sanitary conditions at the place.

The jail was found in a filthy condition, and the beds and bedding in very bad shape.

The sheriff said endless requests to the supervisors for new supplies were unheeded.

By unanimous vote the supervisors are requested to revoke the license for the boxing bouts at Coffroth's arena.

We recommend that the district attorney begin legal proceedings to recover the amount due on interest for moneys deposited by the treasurer in the South San Francisco and First National banks of San Mateo county, according to the report filed by the expert.

The members of the finance committee find the school teachers poorly paid, and recommend that the supervisors provide in the next tax levy for an increase.

On January 30 an accusation was filed against District Attorney Bullock for detaining a prisoner named James Powers in the county jail for over three months without bringing him for a preliminary hearing.

The expert employed by the grand jury presented the following regarding the various county offices:

"The county treasurer informed me that previous to mp audit his books had never been examined by any expert previously employed for that purpose. His books confirm his statement, as there is no evidence whatever to show that they had been examined.

The Auditor—Each and every warrant redeemed since January 1, 1908, has been examined and with a few exceptions were found correct.

A number of warrants were not approved. This should stop, and the one authorizing the work should approve the warrant. More care should be exercised.

It is also noted that the auditor is allowed $75, contrary to law, for extra help in computing the assessment roll each year.

A change in the accounting system of all departments is recommended, as there has been no change since the county was first granted its charter.

Recorder—The office is a revenue producer, the fees during the year amounting to $9,015.30, an increase over 1907 of $951.10.

The board of Supervisors has been allowing an extra $100 per month, contrary to law, for clerk hire. There is no doubt the department is a busy one and the help is badly needed, but there should be no occasion to go beyond the law to obtain the amount. The accounts and records are neatly and correctly kept.

The accounts of the assessor are correct.

The Court House.

The contract was awarded to the J. J. O'Brien Co. for $160,000. They filed a bond for $40,000, when the specifications call for 50 per cent. Rainey & Philips have the stone contract for $29,950. Their bond is $15,000. The bondsmen are the Empire State Surety Co., and the United Surety Co. of Maryland. The expert suggests an investigation into their standing as they are new in the field and he questions their responsibility.

The accounts of the county clerk are neatly and correctly kept, with the exception of a few slight clerical errors, which have been remedied.

The school superintendent's office is found all right, with the exception of a difference between his books and those of the treasurer, but this has been of many years standing, and is due to a misunderstanding, which should be cleared up, as it can easily be.

The tax collector's books were found all right,

The poor farm accounts were incomplete and guess work must of necessity prevail to a great extent. It seems no attempt has been made in the past to find the exact cost of running the farm. Some system should be installed and a report rendered monthly to the supervisors, showing the cost per month of keeping the place going. As it is now, there is no attempt at this, as it seems to run itself in a manner to suit the occasion. The revenue derived from the sale of hogs, calves, produce, etc., was lower in 1908 by $512.99 from those of the year 1907.

Sheriff—Supplies are not purchased by contract but in the open market, contrary to law. The register of prisoners in some cases is not complete, sentences not noted, date of commitment and discharge omitted. Expense of arrest, in some cases, seems high, and might bear investigation. William Curtin was included in the report of prisoners for the month of March and two days charged. He was also included in the month of April and nineteen days charged, whereas he was only in seventeen days in April.

Health Officer.—For burial fees there was turned into the treasury during the year $7364, a decrease of $143 from the preceding year.

Glen Allen has been paid $6,327.-11, or an overpayment of $337.47. In addition to this there is a warrant outstanding for $134.80, which has not yet been presented for payment.

In regard to the purchase of supplies for the various offices, county farm and jail has been done in a most reckless manner, and in direct violation of the law—Section 4047, of the Code, which says:

"The board of supervisors must contract for:

1. County printing.
2. All books and supplies.
3. All supplies for county institutions."

Only recently typewriters have been purchased at the full retail price, and in some cases a higher price than they can be purchased for in the open market. Typewriter ribbons are purchased singly at 75 cents each, whereas they can be purchased for $7 per dozen. Pencils, paper, carbon paper and other things are purchased in the same manner.

The poor farm supplies have been purchased in the same way, no bids having been received for same for the year 1908, and this neglect on the part of the supervisors has cost the county hundreds of dollars. This also applies to the county jail.

THE BACK OF THE NECK.

Make It Proof Against Drafts and Colds In the Head.

"When I was a boy," said a doctor, "I didn't believe in drafts. I thought that they who imputed colds to drafts were cranks. But one November night at a concert I felt all the evening a strong draft on the back of my neck. It was so strong it resembled a suction pump. 'Now,' said I to myself, 'we'll see if this draft will give yours truly a cold.'"

He shuddered.

"For a week," he said, "I was laid up with so vile a cold that I couldn't breathe save with my mouth open. And now I am satisfied that nine out of every ten colds are solely due to a draft on the back of the neck.

"I know how to prevent such colds. Hence I may practically say that I know how to prevent all colds. It is a fact that none of my patients, thanks to my method, know what a cold is.

"They learn from me to do this—to bathe the back of the neck every morning in cold water. Thus the spot becomes hardened. It becomes draft proof.

"And when a new patient, peculiarly sensitive to colds, visits me, my peculiar treatment is to blow on the back of his neck with a bellows for several days in succession. The bellows, in conjunction with the icy douche, frees him from all future susceptibility. Thenceforth his winters pass without that horrid winter pest, a bad cold."—New Orleans Times-Democrat.

TOWN COUNCIL PROCEEDINGS

Redwood Avenue to be Graded and Macadamized for Entire Width

HABITUAL DRUNKS DISCUSSED

Will be Compelled to Disclose Their Source of Supply or do Time in Jail.

The City Council is ready to admit that that part of its recently adopted saloon ordinance prohibiting the sale of liquor to those who incline toward habitual drunkenness is a failure. Other and more compulsive measures will have to be employed if the law is to be made effective. The subject was discussed at the meeting Monday night and various plans were suggested toward the enforcing the regulation. Some of the members were in favor of employing a detective to find out who is furnishing liquor to those on the prohibited list so that they may be arrested and punished but the better plan was agreed upon to arrest drunks and allow them the privilege of giving the information if they choose to. The matter was referred to the city attorney with instructions to have an ordinance covering the subject ready for the next meeting.

A petition signed by R. Svihus, T. Olmos, Mrs. Mary Dillon, C. M. Uhlenberg and J. L. Carrere was received, asking the board to place a light at the corner of Pine and Phelps streets. The petition was granted. It was also ordered that the lamp be removed from the water works tank and a new light placed at Cedar and Phelps streets. Both lamps are tobe of Tungsten system and of 80 candle power.

City Attorney Mansfield presented a resolution rescinding all action taken toward the improvement of Redwood avenue. This was followed by another resolution which provided for the grading and macadamizing of the avenue from curb to curb, the installing of a sewer main, the building of curbsand the building of three concrete culverts, all of which is to be done according to the provisions of the Local improvement Act of 1901.

Resolutions were also adopted establishing the grade and width of all of the streets included in district No. 11, recently established.

Mr. Merrill stated that the improvement of the county road must shortly be taken up and carried out through the formation of a district. The matter was discussed and the street superintendent and surveyor were directed to ascertain the exact location of the water way on the west side of the road between the third bridge and Five Points, with a view of enclosing it with retaining walls. As the question will be given further consideration at the next meeting it is desired that all citizens who are interested be present.

The engineer was directed to prepare a map of the natural water ways within the city limits, the work not to cost over $50.

Both the superintendent and surveyor stated that the old map examined by them show a curve in the Whipple road. This precludes any immediate steps toward straightening of that thoroughfare.

The question of disposing of the city's garbage caused a lengthy discussion with no solution of the problem. It was referred to the Health Committee for further handling.

The construction of a sidewalk in front of the Holder property on Main street, which matter had been referred to Mr. Rice at the last meeting, will be reported upon later.

There were no responses to the board's invitation to the citizens to come forward with suggestions regarding the renaming of some of the city's streets. Mr. Merrill suggested that Broadway at its intersection with Elwood street in Dingee park be called Eleventh street, it being really a continuation of Eleventh street. He also advised that Whipple road be called Fourteenth street. Rice suggested that Monroe, Jackson and Madison avenues in the Hooper tract be designated as "streets". Further consideration of the subject was continued until the first meeting in March and a second invitation was extended to the public to attend and assist in the work.

On motion of Hynding it was ordered that the width of the sidewalks of all 50-foot streets intersecting Redwood avenue be fixed at eight feet.

Superintendent Dickey was authorized to purchase palms and shrubbery for planting in the "Crescent" in Wellesley Park.

On motion of Rice the water company was ordered to discontinue pumping from the city's cistern at the water works.

The board will meet the officials of the San Carlos Park Syndicate next Saturday to examine a rock quarry owned by the latter.

Native Sons Hold Installation.

Redwood Parlor, N. S. G. W. initiated 25 new members at the meeting held Tuesday evening and this was the occasion of one of the most elaborate entertainments ever given by the Parlor.

Following the installation, a banquet was given in the rooms of the California Club, at which over 100 members were present. The rooms had been tastefully decorated with small redwood trees, giving the place the appearance of a nook in the forest, and the club's orchestra, which was hidden in a tangle of evergreens, discoursed appropriate music throughout the evening.

A. Walsh acted as toastmaster and the following were called upon to respond to the various toasts: Daniel A. Ryan, "Our Order"; J. F. Fitzgerald, "California Landmarks"; Charles Turner, "The Subordinate Parlors"; and Joseph Nash, "The Ladies". P. P. Chamberlain one of the oldest members of the parlor delivered an address on "Pioneer Days."

Happenings at Pescadero.

PESCADERO, Feby. 5.—It seems strange after hearing so much said over here by a certain few about what they were going to do on the witness stand before the grand jury at Redwood and how much they knew about A. Bennett and his liquor license and how they were going to oblige Dr. Blackburn thrown out of office so that our ex-supervisor might have a chance to try and get back into the office again and when it came to being put on the stand and found out that they did not known anything. We would think that if they had any business at all it would pay better to attend to it rather than try to make trouble for people that did have business and that did attend to their own and not others business. Some people are never satisfied unless they are trying to make trouble for some one. Loren Coburn says there are a certain few people that ought to have a guardian appointed to look after their person but not their estate, as they have none o but are trying to get possession of some one that has property so they would have some money to spend, and not have to work for it. The world owes us all a living (but) we must work for it.

Roadmaster Good is going these day looking after his roads in order to keep them open.

NEWSPAPERS ARE CRITICISED

County Officials Severely Condemn Unfair Methods Pursued by Unscrupulous Reporters.

The board of supervisors met in regular session last Monday. All the members were present.

The report of the grand jury was read and filed. The reading of the expert's report was dispensed with.

Following the reading of the report a copy of a resolution was read, coming from the Grand Jury, recommending that the supervisors revoke the prize fight privilege held by James Coffroth at Colma on the ground that these exhibitions are detrimental to the county's good name.

On motion of Blackburn seconded by Casey action on the resolution was deferred for 30 days.

A communication was read from the Woman's Club of Lomita Park complaining of the poor drainage of that tract. They desired to know if the board had any jurisdiction over the streets. It was shown the board had no jurisdiction as the streets were not public thoroughfares. On motion of Blackburn seconded by Francis the communication was referred to Casey and the clerk was instructed to answer the letter setting orth fthe facts that exist.

A protest was read against the granting of any more saloon licenses at San Bruno signed by a large number of residents of that place. The protest was aimed at the application of B. Ward. The protest was denied on motion of Casey seconded by Jackburn McEvoy voted no.

The North San Mateo Improvement Club sent a communication requesting that the board take some action toward the improvement of the connecting streets at Hillcrest which are much used and at this season are in a deplorable condition. This matter was also referred to Supervisor Casey who stated that he had already taken steps to improve the streets complained of.

A communication was received from the National Surety Company notifying the board of the withdrawl of that company as surety on the official bond of Sheriff Robert Chatham. On motion of Blackburn the communication was "rejected as far as the board was concerned".

A communication was read from Rodgers, Smith and Thomas, a firm of Palo Alto lawyers, asking what disposition had been made of the claim of Peter Faber for $100 for water furnished the Portola road last Summer. On motion the communication was referred to McEvoy.

Ferdinand Salz sent a communication informing the board that the saloon business of T. G. Durham at Lobitos in the Fourth township had been transferred to the Lobitos Mercantile Co., owned and conducted by F. Salz, and requested that the liquor license be accordingly transferred.

The clerk was directed to notify Mr. Salz to make a formal application for a liquor license.

The canvass of the returns of the San Mateo Homestead Sannitary election was deferred to the next meeting of the board.

A resolution was introduced by Casey seconded by McEvoy declaring the Democrat the official organ of the board in place of the Times-Gazette. E. I. Woodman of the South City Enterprise asked to have the privilege of bidding for the work saying there was no law providing for an official newspaper. He claimed that all such advertising should be passed around. W. J. Martin also said the work should go to the lowest bidder. J. F. Ford said in as much as theDemocrat was the only paper who supported the majority of the members of the board it should be made the official paper.

All other organs should not be given a look in. Vote on the resolution was as follows: Ayes, McEvoy, Casey and Francis. No, Blackburn and Coleman.

The matter of the incorporation of Vista Grande took up a large part of the board's time. Harry E. Styles appeared for the petitioners and H. W. Brown and Geo. C. Ross for several protestants. Mr. Styles contended his petition was in due form and in accordance with the general laws of the state. Mr. Ross and Mr. Brown held that said petition was faulty in that it did not state specifically whether the town was to be of the 5th or 6th class. Mr. Ross made the point that the affidavit and petition were separate documents and not one as required by law. Mr. Ross referred to a similar case where the court held that the petition was illegal. He claimed the petition was not properly advertised.

The matter was finally deferred for one month. Owing to the illness of the chairman and the volume of business beforethe board the matter of the Court House investigation went over until Monday, Feby 8th.

J. C. Nealon of the O'Brien Construction Company said he was anxious to have the subject probed to the bottom and at once. "The reports which have been published from day to day in theo papers," said he, "are injurious to our firm, and we want to aid you in getting at the truth. Start today and if necessary continue tomorrow. We object to the delay and demand a hearing at once." He asked the chairman if he authorized the interview which appeared in the Call of Monday and which purported to have come from him.

Mr. McEvoy replied by disclaiming any acquaintanceship with any Calli reported, and further voouchsafed the statement thatt he was not willing to shoulder responsibility for any statements the newspapers might attribute to him

Clerk Nash asked permission to address the board, and said he, too, had been the subject of purported interviews, which he pronounced false. Then, addressing Chairman McEvoy, he stated that the contract which he secured on calling at his office was not the original, but a copy which was not filed regularly. It was one of many copies made at his direction for the convenience of the various bidders and contained a blue page insert to the effect that the stone work was not to be included. This was added on his direction. The copy also contained the interlineations and omissions so frequently spoken of. "In this manner," said he, "you were led to misunderstand the situation."

Chairman McEvoy replied by saying he was not seeking and notoriety but wanted to state he went to the Clerk's office and requested the court

DEATH OF SHERWOOD HOPKINS

Palo Alto Womans Club Indulges in Obnoxious Criticism of Menlo Visitor.

"Where has the clock at the depot gone?" is the question that is being asked by all the patrons of the railroad company. The time piece has been missed from its accustomed place for the past month and commutors and others are getting anxious about its return.

A respectable resident of this place sought the pleasing shades of Palo Alto during the week to make some purchases. The party tied a horse outside a business place and while doing her shopping was rudely brought to account by a member of the Woman's Club, that has infested the College City for not taking down the check rain of the horse for this was against the morals of the city. The visitor told her accuser that she would look much better getting a square meal for her husband than calling down decent people that visit Palo Alto. It is surprising that the businessmen of Palo Alto permit such a plague as the woman's club to exist. The town would be much better off if the members were placed in a box car and shipped to some distant clime where they could not return to retard business and drive people from a thriving community.

The saloon men met Sunday in Armory hall and organized by electing J. H. O'Keefe chairman. The object of the mmeeting was to discuss ways and means of defeating the bill about to be introduced in the State Legislature to put out of commission all saloons within a mile and a half of the Stanford University. This would close all the saloons in Menlo Park. The matter was fully discussed and the sum of $450 was

house contract and specifications, and the copy which is now pronounced an unofficial copy was handed him. "The copy is interlined and changed and has a bule page insert. It also bears the filing stamp of the county clerk, and the signature and seal of the architect. I merely make this statement for the benefit of the public."

Nealon again urged an early hearing, and Nash and McEvoy again repudiated the purported interviews.

An Examiner reporter, who was present, invited anyone whoo said he was not correctly quoted to step out side. No one accepted the challenge of the belligerent newspaper man.

G. B. Risso called the board's attention to the fact that he had not been paid for the water used on the county roads in the First township during May, June, July, August September and October of last year, the total charge of which was $30. No action was taken as the claim had not been presented to the board.

School Superintendent Cloud presented proof to the effect that an election had been held at Portola, January 16th at which a majority of those voting had voted a bond issue of $3500 for the erection of a new school building. A resolution was adopted confirming the report of the superintendent and ordering the sale of bonds ,they to run ten years and draw 6 percent interest.

A letter was read from the O'Brien Construction Company, complaining that Rainey and Phillips were behind with the stone work and they could not proceed with the brick work Mr. Phillips of the latter firm denied this and challenged the O'Brien people to prove it. The matter was referred to the Court House building committee.

The following claims were allowed and ordered paid from the respective fund:

STATE ATTORNEY WILL PROSECUTE

Bullock Requests Assistance of Attorney General in Cases of Accused Supervisors

CASES SET FOR FEBRUARY 16TH

Defendants Will Question Legality of Findings as Returned by the Grand Jury.

District attorney J. J. Bullock Sheriff Chatham, Supervisors J. H. Coleman, Blackburn and ex-supervisors Debenedetti and J. E. Eikerenkotter were on hand Thursday in the Superior Court when their cases were called. Ross and Ross and Walter H. Linforth appeared for them while Robert Harrison of District Attorney Langond's office appeared for the People in the cases against J. J. Bullock Messrs. Ross and Linforth filed a challenge to the panel of the grand jury specifying 15 objections and demurrer, attacking the legal sufficiency of the accusations returned by the grand jury and charging prejudice and that all the jury had not signed the accusations. The attorneys urged that an early date be set for hearing the objections. The court set February 16th as the date on which the matter would be heard. The court intimated that Judge Dooling of San Benito would preside. At this juncture Mr. Bullock arose and said:

"If the Court please, at this time I desire to state that with reference to the members of the Board of Supervisors who have been accused, that as a similar accusation has been filed against me, I deem it advisable, under the circumstances, to call upon the Attorney General to prosecute said accusation, for the reason that I could not consistently represent them, I being in a sense a co-defendant with them. And for that reason I invited the Attorney General to appear, and his representative is now in Court; and I ask that he take charge, in my stead, of this prosecution."

Ray Benjamin, representing the Attorney General's office, presented the following letter and asked that it be filed:

REDWOOD CITY, CAL., Feb. 2, 1909.

U. S. Webb, Esq., Attorney General.

San Francisco, Cal.

My Dear Sir:—

Enclosed you will please find an accusation returned by the Grand Jury of this county against four persons, two of whom are Supervisors and two ex-supervisors.

At the time this accusation was returned to the Court, an accusation of similar import was filed against me. As the facts in both accusations are the same, and as the evidence in both cases when produced in court will be the same, I can not consistently prosecute the persons charged in this accusation for the reason that they will have to be witnesses in my case, and I a witness in theirs.

For this reason I most respectfully request that you take charge, in connection with myself, of the prosecution of this accusation.

The matter is set for hearing next Thursday at 1 o'clock. If it is not agreeable or convenient for you to be here at that time, I will present to the Court the fact that I have communicated with you, and that I have requested you to take charge, and ask that the time for the defendants to plead be extended sufficiently long for you to become acquainted with the facts in the case.

I will most respectfully ask that you acknowledge receipt of this communication at your earliest convenience, suggesting to me when it will be possible for you to take charge

Yours very truly,

J. J. BULLOCK.

He asked fortime to look into the facts in the cases, but the attorneys for the defendants strongly urged an early hearing. Mr. Benjamin wanted the matter to go over until March and Ross & Ross and Linforth insisted on February 16th. The court finally set that date. Ross and Ross and Linforth called attention that the accusations against Blackburn and Debenedetti were not returnable until Saturday but as those gentlemen were present and ready to go ahead they would waive all rights. At the permission of the court their names were entered in the answer and other papers of the other defendants and their case will be heard at the same time. All the defendants werer anxious for a hearing at the earliest possible date.

The complaint alleges that plaintiff is the owner of a large tract of land near San Mateo, that defendant without any permission erected poles and strung wires on the property to the great damage of plaintiff. The property is a portion of the Rancho de las Pulgas.

The California Electric Company has commenced an action in the Superior Court against Shrewsbury and Smith to recover on a note that was executed on December 31, 1907, in favor of the plaintiff for $492.85. The plaintiff asks for judgment for that sum together with interest at the rate of 6 per cent per annum from date of execution.

Judge Buck on Wednesday gave judgment to John E. Fitzpatrick as trustee of the Donohoe, Kelly Banking Company, and against the Henry Doyle Company for $43,948.83, costs of suit and interest at the rate of 7 per cent per annum from the time of judgment. The suit was commenced on August 8th, 1908. Shares in the Western Fish Company and in the British Columbia Packer's Association and real estate located at San Mateo were ordered sold to satisfy the judgment. The judgment was for a loan by the Donohoe, Kelly Banking Company.

Judge Buck on Thursday granted an interlocutory decree of divorce to Frankie M. Quinn from her husband, John E. Quinn, on the grounds of desertion. The couple was married in San Francisco on August 2d, 1905. Over a year ago Quinn deserted his wife without any cause. TIRING OUT THE STAG

A "Deer Take" In England's Oldest Deer Park.

HOUNDED UNTIL HE GASPS.

The Game Animal Is Mercilessly Driven Hither and Yon, Through Lake and Wood, Until He Falls Exhausted, Though Undaunted.

Parts of certain great parks in England, such as Eridge park, the oldest deer park in the kingdom, are kept practically wild in their original forest state, while near to the castle is the cultivated home park. Eridge park contains 3,000 acres and is the only estate in England, with one exception, where deer taking with hounds is still carried on. Eridge park once formed part of the royal chase. It still retains the wild beauty it then had, although there are more than seventy miles of lovely drives in it, not counting those of the home park.

Deer taking is entirely different from deer hunting. The object is to take the animals alive so that they may be transferred to the home park to be fattened and eventually turned into venison.

The sport is by no means as tame as it sounds. A seven to nine year old red deer is an awkward customer to tackle. He is powerful, agile and well armed with antlers and hoofs.

When there is to be a deer taking at Eridge park the meet is planned for 11 o'clock at the park keeper's house. The underkeepers, with fresh hounds, are scattered through the park to head off the stag should he come their way.

The underkeepers having spread themselves over the park, the park keeper, with the "field" (those following mounted and on foot) set off to find a deer which looks ready for fattening purposes. Having selected one, it is the work of the keeper to get him separated from the rest and then to slip his hound and set after him as hard as we can gallop. The pace, of course, is tremendous, and as rabbit holes abound the risk of a fall is even betting or, rather, a trifle of odds on the certainty of our "taking a toss." As our deer bounds away with his wonderfully easy, elastic movements he makes for the wildest part of the park, expecting to escape his pursuers.

In one place after another he is met with hidden keepers and fresh hounds, till with the instinct of his species he turns to what he thinks is his sanctuary—the lakes. With open mouth and tongue outhanging he plunges a good fifteen feet into the water and swims for the opposite bank. Gasping and tiring, he lands on what he hopes is freedom from his pursuers. But, alas, no! Yet another fresh hound is after him. What can he do? He is too pumped with his already hard burst to face the hill before him.

He turns around and tears down through the bracken with a hound on each side of him, ready to pull him down if they get but half a chance. It is a dingdong race, under trees, through bogs and bracken, up and down dells and breaks, smashing headlong through everything, anything, to reach the shelter of the friendly water once again. With a mighty spring he is in again. For a moment there is breathing space, for now the keepers and hounds, yet some way off, are making for the poor beast, which is in the middle of the lake. Away he swims with graceful movement of his noble head, glancing all around at his pursuers, but with his mind fixed on his line of retreat. He reaches the shore, and, with dripping sides, he is out upon the bank.

Again he makes an effort to baffle and leave behind those clinging hounds that would bear him down. And now two great hounds are stretching themselves out to their utmost pace. Side by side they race after their tiring quarry; in another minute they will have him. The stag, however, manages to make a spurt, though he is now stiffening rapidly, and just reaches some park palings surrounding the big lake.

In an instant he has turned on his pursuers, and with head down and upraised fore leg he is prepared to fight to the death. A hound rushes in, but in a twinkling he is on his back, hurled away like a piece of wood. This checks the other hound, which dodges and bays around the stag. Seeing that things are now getting a bit too warm for him, the stag suddenly turns round and, smashing the palings like match wood, finds himself again in the icy water of the big lake. Away and away he swims, up this long stretch, the water seeming to revive him, for he swims the eastern length, three-quarters of a mile, and then lands at the far end while we follow on the shore. He swims till his feet touch the ground and stands facing us.

All we can do now is to end the situation as speedily as possible. A keeper deftly throws a rope with a loose knot over the stag's antlers. In a moment four burly keepers are hauling him out by the ropes. It is now a slow march to his feeding ground in the home park. Slowly the procession moves, never a slackening of the rope or the hold on the antlers. Through the gate dividing the parks he is brought, an unwilling prisoner, though undaunted. This ends the deer taking. —Town and Country.

Never think that intellect is nobler than the heart, that knowledge is greater than love. Not so! A thousand times no.—Frances Power Cobbe.

ANGER IS DANGEROUS.

It Wrecks the Whole System and Tends to Shorten Life.

It is well known that a violent fit of temper affects the heart instantly, and psychophysicists have discovered the presence of poison in the blood immediately after such outburst. This explains why we feel so depressed, exhausted and nervous after any storm of passion—worry, jealousy or revenge—has swept through the mind. It has left in its wake vicious mental poison and other harmful secretions in the brain and blood.

There is no constitution so strong but it will ultimately succumb to the constant racking and twisting of the nerve centers caused by an uncontrolled temper. Every time you become angry you reverse all of the normal mental and physical processes. Everything in you rebels against passion storms; every mental faculty protests against their abuse.

If people only realized what havoc indulgence in hot temper plays in their delicate nervous structure, if they could only see with the physical eyes the damage done as they can see what follows in the wake of a tornado, they would not dare to get angry.

When the brain cells are overheated from a fit of temper their efficiency is seriously impaired, if not absolutely ruined. The presence of the anger poison, the shock to the nervous system, is what makes the victim so exhausted and demoralized after loss of self control.—Orison Swett Marden in Success Magazine.

A GOOD REASON

Redwood City People Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache, headache and distressing kidney and urinary complaints. Redwood City people testify to permanent cures.

George West, living corner Third and B streets, Redwood City, Cal., says: "Both Mrs. West and myself have used Doan's Kidney Pills, and the results were most satisfactory. Mrs. West suffered from backache and a tired, languid feeling for some time. Doan's Kidney Pills proved to be what her system required and gave her new energy and ambition. My kidneys were also strengthened by their use, my back relieved of pain and my condition made better in every way. I have expressed my opinion of Doan's Kidney Pills to many of my friends. I procured this splendid remedy at P. A. Ryan's drug store.
